FOR IMMEDIATE RELEASE

BIONICVO ANNOUNCES STRATEGIC PARTNERSHIP WITH YAMAN MEDIA GROUP TO ACCELERATE GROWTH ACROSS RADIO AND BEYOND

Industry veteran Yaman Coskun and his Yaman Media Group join forces with the AI voice platform to drive business development across advertising, radio, gaming, audiobook and corporate sectors.

PHILADELPHIA, September 16, 2026: BionicVO LLC, the AI voice platform built by audio professionals and featuring an elite roster of real, professionally cloned voice talent, today announced a strategic partnership with Yaman Media Group LLC. In this capacity, Yaman Media Group will serve as BionicVO's exclusive business development partner, with founder Yaman Coskun taking the title of Director of Strategic Partnerships, leading outreach across key verticals including advertising agencies, radio and podcast production, gaming studios, audiobook publishing and corporate training.

Coskun founded Yamanair Creative in 2001 and built it into a commercial creative provider for thousands of radio stations nationwide before selling the company to Compass Media Networks in 2017. He helped launch iHeartMedia's Creative Services Group in 2004, and his 2025 venture, yaman.AI, counts Oink Ink Radio, the audio advertising company led by BionicVO founder Dan Price, as a creative partner.

"We fell in love with BionicVO after trying every so-called AI audio platform out there. It is, by far, the most powerful and appropriate application of AI audio for seasoned media pros who understand the difference between a library of AI slop versus a roster of real talent," said Yaman Coskun, founder of Yaman Media Group.

The partnership will encompass the full business development cycle, from prospecting and market analysis to contract negotiation and client relationship management, with a particular emphasis on the radio industry and on enterprise and mid-market accounts.

BionicVO launched publicly in August 2026. Every voice on the platform belongs to a working professional actor who consented to the clone, and every time that voice is used, the actor is paid. Source audio is directed and produced by Price's team, applying the same production methodology behind four decades of award-winning campaigns.

“Yaman Coskun is one of the most respected names in radio. His relationships, his instincts and his understanding of where this industry is heading make him the ideal partner to help us reach the audiences who will benefit most from what we’ve built. This is a significant moment for BionicVO,” said Dan Price, founder of BionicVO.

The global AI voice market is projected to reach as much as \$21.75 billion by 2030, according to Grand View Research and MarketsandMarkets.

About BionicVO

BionicVO was founded by Dan Price, a 40-year audio advertising veteran, Cannes Lions and Clio winner, Radio Chair for the One Show and Clios and founder of Oink Ink Radio, with credits spanning McDonald’s, Google, AT&T, Ford, Microsoft and hundreds of the nation’s largest brands. Price built BionicVO from inside the industry, assembling the audio directors, engineers and producers who know what great sounds like. The roster reflects that standard: Ken Hudson Campbell (the smoking Santa in Home Alone), Dan Gilvezan (the original Bumblebee in The Transformers), Pat Duke (the Kool-Aid Man) and Mike Vaughn (Spider-Man: Web of Shadows, MTV’s Scream, Nintendo), among scores of others. Every voice ethically sourced, consented and fairly compensated. BionicVO.ai

About Yaman Media Group

Yaman Media Group is the creative and media services company of Yaman Coskun, who founded Yamanair Creative in 2001, built it into a commercial creative provider for thousands of U.S. radio stations and led it through its 2017 acquisition by Compass Media Networks until 2023. He helped launch iHeartMedia’s Creative Services Group in 2004 and launched yaman.AI, a hybrid creative service for radio sellers, in 2025. yamanmediagroup.com
